

DETACH OUTLET EXTENSION

PRODUCT INFO

Description

The Detach Outlet extension is designed to fit over the existing outlet on a Topaz Model Valve with Detach base. The Outlet Extension directs the flow into a narrow stream creating a less turbulent water flow while lengthening the outlet by 50mm (2").

Code: ACP50

Topaz Valve Only

**Topaz Valve with
Outlet Extension**

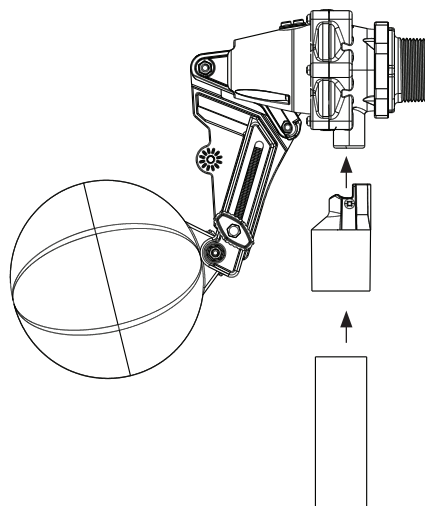

Applications

- Minimizing water turbulence
- Piping water off to other tanks
- Confined tanks and cisterns
- Evaporative Cooling

Features

- Extends Outlet 50mm (2")
- Air Break Non Siphon Built in
- Fits Topaz Model Valves with Detach Base
- 25mm(1") PVC Pipe can be glued into Outlet Extension to extend further
- Stainless Steel screws hold outlet in place
- ABS plastics

Installation Instructions

Detach Base Spout

Push Outlet Extension over Detach Base spout and tighten screws to fix in place.

1" (25mm) PVC Pipe can be inserted to lengthen Outlet if required
NB : Pipe is not included
